

Glowtella

All-natural epilation paste

from figs & dates

Original oriental recipe

Why Glowtella?

- **No heating required** – save time with easy application at room temperature.
- **Cost-effective** – use less product and save on each treatment.
- **Less painful, long-lasting results** – smooth skin for up to 6 weeks
- **Boosts your salon's prestige** – offer an exclusive service no one else has!

A unique way to remove hair:

- **100% natural ingredients:** figs, dates, and lemon juice
- **No heating required** – simple application at room temperature
- Gentle on sensitive skin, suitable for all hair types
- **Environmentally friendly:**
100g of Glowtella = approx. 400g of regular sugar paste
- Ideal for beauticians, spas, epilation centers, barbershops, and home use

No pigmentation marks or damaged skin

Glowtella suits all skin types, even sensitive ones. It removes hair without sticking to or damaging the skin, leaving it smooth and free of pigmentation marks or irritation.

The Glowtella Story

Petr „Pity“ Krejczy, a professional beautician, spent many years using traditional epilation methods. One day, a client shared a family secret with him – an ancient Persian epilation technique. He perfected this secret, and today offers the unique Glowtella epilation, available nowhere else.

How to use Glowtella?

1. Prepare Your Skin

We recommend using our **Pre-Epilation Aloe Vera Emulsion** to clean the skin and improve the adherence of hair to the Glowtella paste.

2. Application

Roll a small ball of Glowtella and apply it in the direction of hair growth.

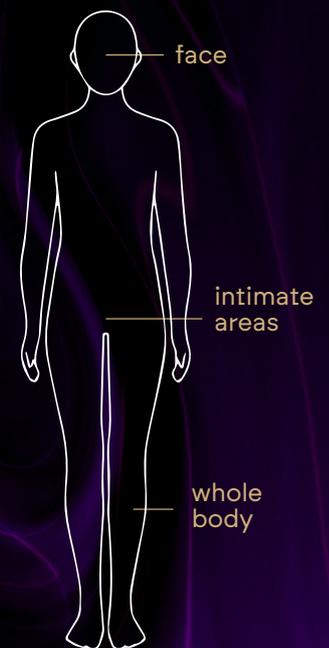

3. Epilation

Pull the Glowtella swiftly against the direction of hair growth in one swift motion.

4. Post-Epilation Care

Use our **Post-Epilation Aloe Vera Emulsion** to soothe and hydrate the skin, reducing redness and irritation.

Suitable for men
and women

Glowltella Product Range

Glowltella All-natural epilation paste

Available in three sizes

Glowltella 360g

Glowltella 560g

Glowltella 900g

Pre-Epilation Emulsion with Tea Tree Oil

- Glowtella's Pre-Epilation Emulsion disinfects and prepares the skin for epilation by increasing the adhesion of the Glowtella paste to the hairs.
- Formulated with natural Tea Tree Oil, this emulsion is gentle on the skin and enhances the effectiveness of the epilation process.

Volume: 200 ml

How to Use: Apply a small amount evenly onto the skin before epilation and gently massage in.

Post-Epilation Aloe Vera Emulsion

- Soothes and hydrates the skin post-epilation, preventing redness and irritation.
- Quick-absorbing and leaves the skin feeling fresh and calm.

Volume: 200 ml

Where to Use Glowtella

Glowtella is perfect for professionals and home use. It is ideal for:

- **Beauticians, Spas, and Epilation Centers:** Offer a unique, eco-friendly service that boosts the prestige of your business.
Barbershops and Salons: Add a natural hair removal solution to your offerings.
- **Home User:** Glowtella is simple to use at home, providing professional-quality results in the comfort of your own space.
- **Athletes and Fitness Enthusiasts:** Maintain smooth, hair-free skin easily.
